

What is Project SEARCH?

Project SEARCH is a business led collaboration between Mississippi Baptist Medical Center, Clinton High School, Jackson Public School District, and The Mississippi Department of Rehabilitation Services that enables young adults with disabilities to gain and maintain employment through training and career exploration. It is an unpaid internship. The goal for each program participant is competitive employment. To reach that goal, the program provides real-life work experience combined with training in employability and independent-living skills to help young people with significant disabilities make successful transitions to productive adult life. As a result, at the completion of the training program, students with significant intellectual disabilities are employed in nontraditional, complex and rewarding jobs.
